Checks (please write check out to The Feisty Pepper)

I (_name)_____ understand that the Feisty Pepper CSA will in good faith, grow/source the freshest most sustainably grown fruits/vegetables. The Feisty Pepper will use the most up to date planting and growing techniques with the least impact to the long-term health of the garden soil.

I (_name)_____ fully understand that by becoming a CSA member of the Feisty Pepper, I share in the risks of the farmer including risks beyond the farmer's control, such as drought, diseases, weather, wildlife damage and other disasters, man made or natural. I understand that if the crop harvest is minimal, I will receive less in my share and if the crop harvest is bountiful, I will receive more in my share. I also understand that food safety is important and I will wash all fruits/vegetables that I consume. I will not hold the Feisty Pepper responsible for any food safety issues.

Why buy at the FEISTY PEPPER

This is a third generation, family-owned and operated farm right here in Morris County. In 1952 Noel Galfo and his wife Elena started growing vegetables on the farm, and then in 1995, Noel's youngest son Gregory and his wife Patricia, bought and took over the farm. In 2016, Gregory's only son, Thomas aka Farmer Tom, stepped up to expand the family operation to bring you freshly-grown, high-quality fruits and vegetables, flowers and herbs.

Our goal at Feisty Pepper is to ensure the most sustainable soil management practices and the least amount of impact to the environment. We plant and grow with carefully selected seeds using little to no use of chemicals or fertilizers.

We have developed a growing platform of densely-seeded and closely-spaced plants to allow us to weed and care for our plants by hand as well as to minimize the use of fossil fuels with our mini tractor.

Our highest priority is to bring you the freshest, most flavorful produce that you can find in your local area.

FEISTY PEPPER CSA 2024
